Hon. Minister of Trade, Agribusiness and Industry

"From farm to factory to global markets"

A MESSAGE OF PARTNERSHIP

President John Dramani Mahama's vision is to deliver transformational policies that create sustainable, decent and well-paying jobs — especially for Ghana's youth.

By E.I. 1 (2025), the Ministry was realigned as MOTAI to lead reforms that:

- reduce the cost of doing business
- attract domestic & foreign investors
- rejuvenate manufacturing
- eliminate administrative bureaucracies
- drive local production of raw materials

PRIORITY PROGRAMMES

- 1. Accelerated Export Development**
Non-traditional export sector growth
- 2. Feed the Industry**
Local raw materials via contract farming
- 3. Rapid Industrialization for Jobs**
Strategic industries & value addition
- 4. Agro-Processing for Jobs**
Smallholders into commercial value chains
- 5. Made-in-Ghana Promotion**
Quality, competitive local products
- 6. Women in Trade & Agribusiness**
Gender-equitable value chain growth

UK–GHANA TRADE AT A GLANCE

Total UK–Ghana trade reached £1.5 bn in the 4 quarters to Q3 2025, up £154 m (+11%). Bilateral trade has grown 8% over 10 years, to £3 bn in 2024.

UK goods to Ghana	£477 m
UK services to Ghana	£381 m
Total UK exports	£858 m
Ghana goods to UK	£242 m
Ghana services to UK	£440 m
Total UK imports	£682 m
TOTAL BILATERAL TRADE	£1.5 bn

Source: UK DBT Factsheets; HMRC (Mar 2026).

TOP UK IMPORTS FROM GHANA

Cocoa — 45% of UK imports from Ghana in 2025 (£65.6m cocoa paste, £52.3m beans). Also: tuna, mangoes, guavas, bananas, yams — reflecting Ghana's agribusiness strength.

GROWING PARTNERSHIP

Over the last 10 years, UK imports of services from Ghana have risen 37% — from £286m in 2014 to £391m in 2024.

In 2025, UK imports of Ghanaian goods grew by 43% (£80m), led by a 120% surge in cocoa thanks to high TPA preference utilisation.

UK–GHANA TPA: KEY GAINS

£437m	into UK at preferential rates since 2022
+61%	TPA-route imports, 2025 vs 2024
98%	Preference Utilisation Rate (up from 87%)
+120%	growth in UK cocoa imports, 2024–25

WHY INVEST IN GHANA

- Stable democracy
- Gateway to ECOWAS (400m) & AfCFTA (1.4bn)
- Preferential UK market access (TPA)
- Young, English-speaking workforce
- Abundant raw materials
- Modern ports & infrastructure
- GIPC & Free Zones incentives
- Active business-regulatory reform

PRIORITY SECTORS

Agribusiness • Manufacturing
Pharmaceuticals • Textiles & Garments
Automotive • Renewable Energy
Digital & Technology • Logistics
Industrial Parks • Free Zones

HOW TO ENGAGE

- > Meet MOTAI delegates at the Summit
- > Engage GIPC & GFZA for incentives
- > Connect with GEPA for market access
- > Explore co-investment opportunities
- > Join Made-in-Ghana market partnerships

PARTNER WITH GHANA — GROW WITH GHANA

Ghana offers UK investors a stable democracy, a strategic gateway to West Africa, preferential UK market access under the UK–Ghana Trade Partnership Agreement, and a young, dynamic workforce. We are open for business.

Your People Are Your Greatest Competitive Advantage.

Your people are your greatest competitive advantage. Vertria reveals their potential, develops their capability, and gives you the evidence to make the decisions that move your organisation forward.

Every organisation invests in its people. But at the end of it, most are left with the same question they started with.

Who actually got it?
Who is ready for more?
Who has the potential we
have been looking for?

Most organisations do not know. Not really. They know who attended. But they do not know who truly understood, who can apply it under pressure, and who is ready to lead.

That gap between investment and insight is one of the most expensive problems in any organisation.

Vertria closes that gap.

We partner with governments, financial institutions, and forward-thinking organisations to build programs that develop your workforce and generate the data you need to make confident decisions about your people.

Not a generic course — a genuine development experience built entirely around your industry, your operations, and your people.

The organisations we work with walk away with something they have never had before — a clear, evidence-based picture of their people's capability and a program built to develop it.

Every partnership is custom. No two programs look the same because no two organisations are the same.

Enabling Ghana's Payments Transformation

GhIPSS is proud to contribute to Africa's evolving digital finance landscape as Ghana's national payments infrastructure provider

Established in 2007 as a subsidiary of the Bank of Ghana, GhIPSS builds and operates interoperable payment systems connecting banks, fintechs, and mobile money providers. As a platform enabler, GhIPSS deliver the infrastructure that drives efficient and scalable financial services across Ghana.

In line with its mandate, GhIPSS has implemented and currently manages the following:

- National Biometric Smart Card Banking & Retail System- e-zwich
- Cheque Codeline Clearing (CCC) & the Ghana Automated Clearing House (ACH) Systems
- National Switching and Processing System-gh-link
- The GhIPSS Instant Pay Solution
- Mobile Money Interoperability
- GhanaPay Mobile Money in partnership with Ghana Association of Banks

Together, these platforms form the backbone of Ghana's digital payments ecosystem. This includes advancing real-time, interoperable payment rails, adopting ISO 2022 standards, and enabling innovation through open APIs, digital identity integration, and data-driven systems.

Licensed financial service providers seeking to connect, integrate, or build on GhIPSS platforms are encouraged to contact GhIPSS.

Mobile Money Interoperability

Powered by

CSL Pay

Redefining the **Movement**
of **Money** Across Africa

CSL Pay is a Pan-African payment network built on a simple but powerful premise — that moving money into and across Africa should be fast, affordable and friction-free.

By connecting organisations directly with trusted African banking and pay-out partners, CSL Pay eliminates the intermediaries that have long driven up costs and slowed down transactions. The result is a **smarter, leaner payment experience** that puts more value back in the hands of businesses and individuals alike.

From Bank Transfers and Mobile Money to Cash Pick-up and Bill Payments, CSL Pay offers a comprehensive suite of payment solutions — all accessible through a **single platform**, with **full transparency on pricing**.

One Platform.
One Connection.
Limitless Possibilities.

AFRICOIN

Powering on-chain markets in Africa

Message from the Executive Director, AFRICOIN Ghana.

Kojo Hastings

Executive Director,
AFRICOIN Ghana.

Greetings distinguished guests,

Welcome to this year's edition of the **Ghana-UK Investment Summit** happening today in London, UK.

The theme “**the reset agenda: restoring investor confidence to unlock opportunities and shared prosperity**” resonates deeply with what we have been building at AFRICOIN Ghana.

One of the key tailwinds that favors the long-term growth trajectory of Sub-Saharan Africa is a great endowment of natural resources. Ghana in particular is endowed with large gold reserves – and the recent reforms led by the Ghana Gold Board (GoldBod) have further positioned Ghana as a model for how natural resources can be managed by other African countries. As of 2026, Ghana ranked **1st in Africa** and **6th globally** for gold deposits, with 2025 production surging to a record **USD 20.9 Billion**, on account of reforms such as the active formalization of the Small-Scale Mining sector.

The key question is how can we leverage such a great endowment of natural resources coupled with other key tailwinds such as favorable demographics, to unlock the development financing resources needed to drive steeper, sustainable development in the region – that Global Asset Managers like Bridgewater, as well as DFIs like the World Bank estimate to be about **30 percent of GDP**?

For instance, achieving Ghana's industrialized development goals require an estimated 52% of GDP annually – leaving an annual financing gap of **~\$43 billion**. To bridge this chasm, there is need to leverage new financial mechanisms that unlock capital. **AFRICOIN's gold tokenization initiative bridges this macro gap**. By issuing regulated digital tokens backed by verifiable, audited gold reserves, AFRICOIN opens this market to a far wider class of investor. For the investor, tokenized gold offers direct exposure to a hard asset with a centuries-long store of value – without the friction of physical custody, minimum investment thresholds, or illiquid settlement. Positions can be held and traded with authorized distribution partners such as licensed exchanges and banks.

AFRICOIN is leveraging the **Ghana Securities and Exchange Commission (SEC) Sandbox**, under the Virtual Asset Service Providers Act, 2025, to test the platform working closely with the Gold Board and other partners such as Standard Chartered Bank. Tokenization will make Ghana's natural resources such as gold accessible to a new generation of investors and give Ghanaians in the diaspora an opportunity to participate directly in the economic development of our country.

We are excited to be part of that story. Visit the AFRICOIN booth here at the Summit, our team will be delighted to walk you through the platform and explore how we can work together.

GHANA FREE ZONES AUTHORITY

The Ghana Free Zones Scheme is a private sector-driven initiative established to promote export-oriented investment, stimulate job creation and accelerate Ghana's industrialization agenda. The Scheme provides a highly conducive business environment that supports value-added production of goods and services, while attracting both foreign and domestic investment to enhance Ghana's global competitiveness.

UNIQUE PROPOSITION

- The whole of Ghana is open for Free Zone Investments.
- At least 70% of goods/services must be exported and 30% may be permitted to be sold locally.

INCENTIVES

-  100% exemption from payment of direct and indirect duties and levies on all imports for production and exports from free zones.
-  Minimal Customs formalities.
-  100% exemption from payment of income tax on profits for 10 years which will not exceed fifteen percent (15%) thereafter.
-  Relief from various Bureaucratic restrictions and statutory requirements.
-  No import licensing requirements.
-  100% ownership of shares by any Investor, foreign or national in a Free Zone enterprise.

PRIORITY SECTORS

- Agro - Food Processing • Information, Communication & Technology • Textiles & Apparel
- Pharmaceuticals • Business Process Outsourcing • Enclave Development • Oil & Gas
- Seafood Processing • Light Industry & Assembling Plant • Power Generation Management
- Recycling Management • Jewelry Manufacturing • Ceramic Manufacturing • Ethnic Beauty Products

ENCLAVE DEVELOPMENT

The Afiienya EPZ/SEZ is Ghana Free Zones Authority's next-generation industrial enclave, driving export-led growth in West Africa.

- 1,258 acres of prime industrial land
- Close to Tema Harbour & Accra international Airport
- Ideal for logistics and manufacturing

Opportunities for Investments include:

-  Building of Warehouses & Factory Shells
-  Power Generation & Distribution eg. Solar Thermal, Biomass, Wind, Natural Gas etc
-  Water Storage & Distribution System

TREE CROPS DEVELOPMENT AUTHORITY - TCDA

OUR VISION

To be a highly developed, diversified, value added , globally competitive and sustainable tree crop sector in Ghana

OUR MISSION

To facilitate the development and well-being, through research, capacity building and excellent services of the selected tree crop industries with a view to achieving a long-term commercial productivity and sustainability, while providing a higher contribution to the national economy of Ghana.

OUR MANDATE

To regulate and create conducive environment for the growth and development of tree and industrial crops in Ghana with consequential benefits to the economy of the country.

STRATEGIC FOCUS

TCDA will regulate and develop tree crops such as cashew, coconut, oil palm, rubber, mango and shea through five broad strategic areas:

- Production & Value Chains Support
- Research Support
- Value Addition & Industrialization
- Capacity Building Support
- Registration & Licensing (Compliance & Enforcement)

Ghana International Bank (GHIB) hosted #CNVERGE 2025 – Trade Banking for Africa in the City of London this August, bringing together key stakeholders shaping Africa's trade ecosystem. Held under the theme "Rethinking Commodity Finance for Growth," the conference welcomed participants from over 60 corporates, sovereigns, and financial institutions.

Discussions explored trade finance, correspondent banking, digital trade infrastructure, ESG, and the global commodities outlook. The event reinforced GHIB's role in connecting Africa's economies to global markets through London.

Join us at #CNVERGE 2026, from 12–14 August 2026 at The Dorchester, London, as the conversation continues on advancing African trade.

Scan the QR code here to register for CNVERGE 26.

Your People Are Your Greatest Competitive Advantage.

Your people are your greatest competitive advantage. Vertria reveals their potential, develops their capability, and gives you the evidence to make the decisions that move your organisation forward.

Every organisation invests in its people. But at the end of it, most are left with the same question they started with.

Who actually got it?
Who is ready for more?
Who has the potential we
have been looking for?

Most organisations do not know. Not really. They know who attended. But they do not know who truly understood, who can apply it under pressure, and who is ready to lead.

That gap between investment and insight is one of the most expensive problems in any organisation.

Vertria closes that gap.

We partner with governments, financial institutions, and forward-thinking organisations to build programs that develop your workforce and generate the data you need to make confident decisions about your people.

Not a generic course — a genuine development experience built entirely around your industry, your operations, and your people.

The organisations we work with walk away with something they have never had before — a clear, evidence-based picture of their people's capability and a program built to develop it.

Every partnership is custom. No two programs look the same because no two organisations are the same.

AFRICOIN

Powering on-chain markets in Africa

Message from the Executive Director, AFRICOIN Ghana.

Kojo Hastings

Executive Director,
AFRICOIN Ghana.

Greetings distinguished guests,

Welcome to this year's edition of the **Ghana-UK Investment Summit** happening today in London, UK.

The theme “**the reset agenda: restoring investor confidence to unlock opportunities and shared prosperity**” resonates deeply with what we have been building at AFRICOIN Ghana.

One of the key tailwinds that favors the long-term growth trajectory of Sub-Saharan Africa is a great endowment of natural resources. Ghana in particular is endowed with large gold reserves – and the recent reforms led by the Ghana Gold Board (GoldBod) have further positioned Ghana as a model for how natural resources can be managed by other African countries. As of 2026, Ghana ranked **1st in Africa** and **6th globally** for gold deposits, with 2025 production surging to a record **USD 20.9 Billion**, on account of reforms such as the active formalization of the Small-Scale Mining sector.

The key question is how can we leverage such a great endowment of natural resources coupled with other key tailwinds such as favorable demographics, to unlock the development financing resources needed to drive steeper, sustainable development in the region – that Global Asset Managers like Bridgewater, as well as DFIs like the World Bank estimate to be about **30 percent of GDP**?

For instance, achieving Ghana's industrialized development goals require an estimated 52% of GDP annually – leaving an annual financing gap of **~\$43 billion**. To bridge this chasm, there is need to leverage new financial mechanisms that unlock capital. **AFRICOIN's gold tokenization initiative bridges this macro gap**. By issuing regulated digital tokens backed by verifiable, audited gold reserves, AFRICOIN opens this market to a far wider class of investor. For the investor, tokenized gold offers direct exposure to a hard asset with a centuries-long store of value – without the friction of physical custody, minimum investment thresholds, or illiquid settlement. Positions can be held and traded with authorized distribution partners such as licensed exchanges and banks.

AFRICOIN is leveraging the **Ghana Securities and Exchange Commission (SEC) Sandbox**, under the Virtual Asset Service Providers Act, 2025, to test the platform working closely with the Gold Board and other partners such as Standard Chartered Bank. Tokenization will make Ghana's natural resources such as gold accessible to a new generation of investors and give Ghanaians in the diaspora an opportunity to participate directly in the economic development of our country.

We are excited to be part of that story. Visit the AFRICOIN booth here at the Summit, our team will be delighted to walk you through the platform and explore how we can work together.

**VISIT THE
AFRICOIN BOOTH**

Let's build the future of
finance in Africa, together.

MARINE DRIVE TOURISM INVESTMENT PROJECT

INTRODUCTION

The Marine Drive Project is a landmark initiative designed to transform Accra's waterfront into a vibrant hub for tourism, culture, and investment. Positioned as a catalyst for national growth, it blends heritage, leisure, and modern infrastructure to create a world-class destination.

PROJECT VISION

To establish Accra's coastline as a premier tourism and cultural district, showcasing Ghana's heritage while driving modern investment opportunities. The vision emphasizes inclusivity, sustainability, and global competitiveness, redefining Accra as Africa's coastal capital for business and leisure.

RETURN ON INVESTMENT (ROI)

- High Tourism Potential: Millions of visitors projected annually.
- Revenue Streams: Hospitality, retail, cultural attractions, and real estate.
- Job Creation: Thousands of direct and indirect employment opportunities.
- Long-Term Value: Sustainable development backed by strong government support ensures investor confidence.

KEY PARTNERS

- Oversight Ministry: Ministry of Tourism, Culture & Creative Arts
- Anchor Developer: Attachy Construction Limited
- Special Purpose Vehicle: Accra Marine Drive Enclave Limited
